

Setting up the JDBC Project

Bryan Hansen

DIRECTOR OF SOFTWARE DEVELOPMENT

@bh5k

Prerequisites

Demo

Samples in Exercise files or GitHub

Microservice Based App

Database setup

[▶ Resume Course](#)[Bookmark](#)[Add to Channel](#)[Live mentoring](#)[Table of contents](#)[Description](#)[Transcript](#)[Exercise files](#)[Discussion](#)[Learning Check](#)[Recommended](#)

These exercise files are intended to provide you with the assets you need to create a video-based hands-on experience. With the exercise files, you can follow along with the author and re-create the same solution on your computer. We find this to be even more effective than written lab exercises.
